Zhassulan Serikuly

Web Developer

EXPERIENCE

TOO "KacXIM"

June, 2021 - August, 2021 / 3 months Atyrau, Kazakhstan

Role: IT Specialist

Responsibilities: Computer diagnostics to investigate issues, as well as to provide technical assistance and support. Fixed problems related to the computer software and hardware operation. Experience with social media and communication platforms.

[Recommendation from my boss](#)

TechnoPark SDU

September, 2021 - February, 2022 / 6 months Almaty, Kazakhstan

Role: Frontend Developer

Tech stack: HTML, CSS, JavaScript

Responsibilities: Developed and implemented supporting code for web applications and websites, ensuring functionality and optimal performance. Created a visually appealing web page based on design layouts. Binding to the user interface of scripts that provide visualization and animation of the site pages. Providing the required level of UI and UX.

Athena Plus

August, 2022 - December, 2022 / 5 months Almaty, Kazakhstan

Role: Junior Frontend Developer

Tech stack: React.js, Next.js

Responsibilities: Lead the front-end development of new projects and contributed to the modernization of existing ones. Utilized the React framework to implement user interface designs and deliver intuitive and visually appealing web applications. Optimized UI/UX functionality by developing reusable code components. Created logos and animations for websites. Linking the frontend and backend of the site.

[Recommendation from my boss](#)

TOO "Key Horse"

January, 2023 - June, 2023 Almaty, Kazakhstan

Role: Full-stack Developer

Tech stack: Vue.js

Responsibilities: Worked with microservices and libraries to enhance the scalability and modularity of the service architecture. Adding and implementing new utility features to optimize functionality and improve overall performance of the service. Writing APIs for a variety list of forms. Identifying and resolving design errors during the layout phase, ensuring consistent and visually appealing user interfaces.

Internship

Unistory LLC

December, 2022 Almaty, Kazakhstan

Description: Creating an application on React.ts, with the connection of a crypto wallet (Metamask), enabling users to securely manage their cryptocurrency assets and the output of information from the backend.

InterTeach

January, 2023 Almaty, Kazakhstan

Description: Preparation of a new and modern design for company websites on the Figma application. Implementing this design with react. Demonstrating data from API with redux.

PERSONAL PROJECTS

New Navat

Tech stack: HTML, CSS, JavaScript, jQuery

Description: Multilingual site of the new, sensational, fifth point of Teahouse Navat, which is located in the city of Almaty. Website is unusual in that each page block is the same size, allowing for the benefits of snap scrolling.

<https://newnavat.netlify.app>

Midas Event

Tech stack: HTML, CSS, JavaScript, jQuery

Description: A company that organizes various kinds of events. Famous for the organization of the show program in the "NEBO" and the concert of Irina Kairatovna. Each part of the site has its own unusual animation.

<https://midasevent.kz>

Unistory

Tech stack: React.ts, CSS, jQuery

Description: Application on React, with connecting a crypto wallet and displaying information from the backend.

<https://unistory.netlify.app>

Rento

Tech stack: React.js, redux

Description: Startapp project with copyright. Online service for booking sport facilities.

<https://rentokz.netlify.app>

“ЧЕК МАРКЕТ”

Tech stack: Next.js

Description: Multi-page site written in next.js. The hardest part of this site is the large number of modals and forms. This company is engaged in consultations, design, sale of equipment, installation and adjustment of security systems, warranty and post-warranty service, technical support.

<https://github.com/zhassulaan/check-market>

“Альпинист Товаров”

Tech stack: React.js

Description: The Alpinist-Products online store, known as yaq, is a network of multi-brand sports stores offering equipment for outdoor activities, hiking, trekking, skyrunning, running and other sports and outdoor activities. The React framework was used to implement this site. This project has a rather complex filtering point where the user can search for goods by category, by color, by gender, by size, by type, and sort the goods as they wish.

<https://alpenist-tovarov.netlify.app>

Portfolio

Tech stack: HTML, CSS, JavaScript, jQuery

Description: Portfolio web-page that introduces me. This project is made to show my abilities and information, such as education, skills and work experience. Thanks to this page, you don't have to download a PDF file and read boring text on one text file.
